

# A GIRL'S COMING OF AGE JOURNEY

Tales of feminine early bravery

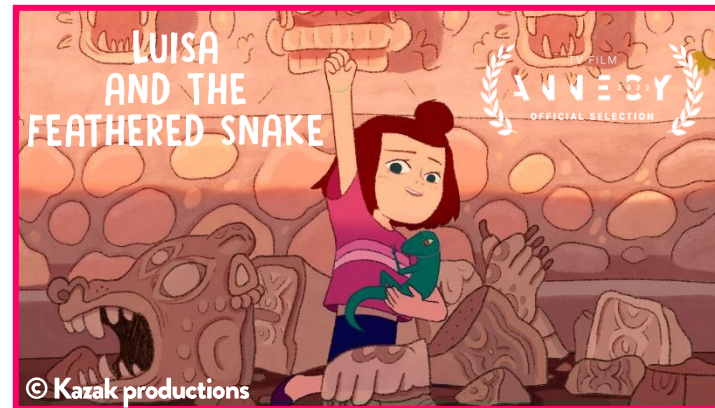

The stories of Noah, Luisa, Ellie and Chenghua, show that girls can be brave from a very young age and that it should be encouraged ! These four young girls, who are between childhood and pre-adolescence, live their own initiatory journey in each chapter of this collection.

They all face big changes in their lives and have a hard time fitting in their new environment. They overcome these difficulties by conquering a new territory : Noah conquers the sea by learning how to sail, Luisa unravels the mysteries of Mexico City where she just moved, Ellie crosses a forest and a river all by herself just to reach the birds' Island of Souza, and Chenghua's dreams of space help her overcome her daily-life challenges. Their determination and courage will lead them to grow up and to find their own path.

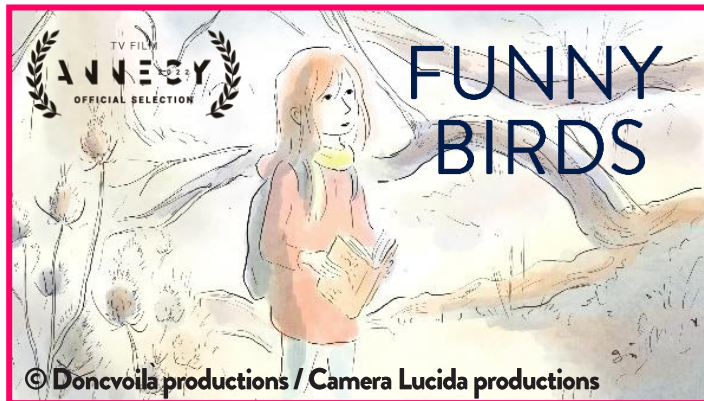

The graphism of these specials, produced by four talented independent French producers Miyu, Kazak, Doncvoilà and Tripode, are distinct from one another, and are all very beautiful, poetic and appealing. They can be programmed together in a long feature-film slot or on separate 26' slots.

# Mussels & Fries

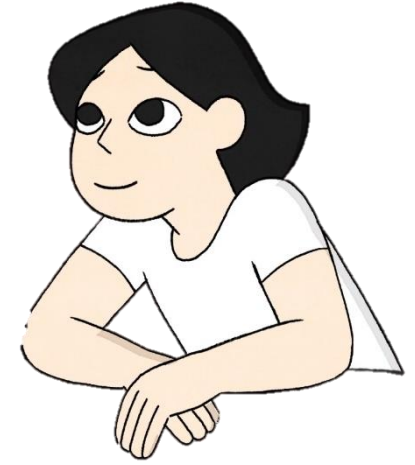

Noah is 9 years old and just moved to Benac'h, an island off the Brittany coast, where her mother found a job as a waitress in a mussels restaurant.

Benac'h is a small island where all kids have known each other forever, so Noah's arrival doesn't go unnoticed. She quickly gets nicknamed "Mussels" - in reference to the restaurant above which she lives.

Noah will soon find out that these kids' main activity outside school is sailing, and she'd just love to be part of that too - as well as taking part in the annual regatta! Except that her mother can't afford to pay for the sailing classes...

Through her courage and determination, and with a little help from an intriguing former woman navigator, Noah will find a way to learn how to sail on her own!

# FUNNY BIRDS

Ellie is ten years old and just entered Middle School. She has a wild imagination, an endless curiosity, and a passion for birds. She watches them, listens to them and observes them in all situations : on the streets, at school... and even at the library where she reads about birds to always learn more.

One day, the school librarian lends her a rare ornithology book. Ellie goes back to the library the next day to hand it back as promised, only to find out that the doors are already closed.

Her curiosity leads her to return it in person to the librarian, who actually lives on an island full of birds in the middle of the Loire river off Saumur... it's the start of an adventure at the heart of nature, and an initiatory trip for Ellie!
